### April is National Garden Month

Spring is coming on strong, and by the calendar is technically already here! If you haven't begun looking at planting this year's garden, it's time to get a move on! The changing weather promises good growing seasons to come, and Garden Month encourages you to get out and start preparing your ground!

NETWORK

Contents Cleaning Specialists

First General is a proud member of the elite ECONA Network.

Kick spring cleaning into high gear, and troubleshoot cooling and irrigation systems for the warmer months ahead!

First General Services recommends the following to-do list to help prepare your home for the new season:

- ✓ Inspect paths and driveway. Repeated freezing and thawing can take a toll on asphalt & concrete. Schedule repairs as needed
- ✓ Schedule cooling-system maintenance. A properly maintained system cools better & uses less energy
- ✓ Clean gutters and downspouts. Clogged gutters during a rainy spring can cause water to pool, potentially damaging the roof & siding.
- ✓ Test sprinklers and irrigation system. Test each part, adjusting or repairing as needed
