To-Dos: Your June Home Checklist

June marks the beginning of summer, making it a perfect time to take care of repair chores before the heat becomes too much!

- ✓ *Replace air conditioner filters*-to ensure energy efficiency and safety, filters should be replaced every year
- ✓ *Clean dryer vent pipe*-routine use of dryers creates lint build-up. Prevent potential fires by clearing out debris
- ✓ *Clean grill grates*-buildup of grease and food can lead to possible uncontrolled fire. Routine cleaning eliminates the risk of this hazard
- ✓ *Prune shrubs away from air conditioners*- If shrubs are too close to the outdoor unit, it can restrict the air-flow, causing serious problems
