

CALL US FIRST FOR PROMPT EMERGENCY SERVICE
570-824-0680

31 Ruddle Street Wilkes-Barre

March is a jam packed month! We can look forward to celebrating Daylight Savings Time, St. Patrick's Day, and the 1st Day of Spring! Happy March!

Ducts play a critical role in the comfort of your home as well as the quality of the air you and your family breathe. A duct system consists of a network of tubing that connects to your HVAC unit and delivers warm or cold air throughout your home.

Over time, your ductwork can accumulate a wide variety of debris such as dust, pet dander, flakes of human skin, hair and insect and rodent excrement. Eventually, this can clog the ducts and reduce the efficiency of your HVAC system.

The First General team provides duct cleaning services and recommends cleaning of the entire system once a year. Call us at 570-824-0680 to schedule an inspection!

Spring has (almost) sprung! That means shaking off the cabin fever and getting outside on those first warmer days.

The First General team recommends these home maintenance tips:

- ✓ Seal any small holes or cracks in the foundation of your home. Not only will it keep your home looking it's best but it will keep out bugs and other small critters looking for a way inside

- ✓ After the snow melts, take a look at

- your sidewalks, walkways, and other concrete areas. If you see any cracks or shifting that occurred over the winter months, Spring is the time to make those repairs
- ✓ Replace any cracked boards on your wooden deck or stairs. Snow melt and freezing temperatures can wreak havoc on wooden structures. Finish the job with a coat of high quality sealant for extra protection from the elements

IN THE

Be sure to mark your calendars for the upcoming events the First General team will be participating in!
